

Five Days of Fun Summer Camp

“Both my girls had a wonderful week. They were buzzing every evening about all they had done that day. I would 100% send them to other Sentinus run events. The girls had only good things to say about the leaders, their kindness, engagement and knowledge.”

2018 Summer School Parent

Summer Camps with something for everyone. Give your children the opportunity to work in teams, problem solve, use their creativity and, most of all, have great fun while designing and building their “City of the Future”. They will work together on a project throughout the week and show off their work at the presentations on the last day.
